

In various areas, we actively participate in events and festivities as members of the community

Overseas Social Contribution

●Cooperation on the Production of Buddha Replica for Angkor Monument

In November, 2007, a new museum opened in the outskirts of the Angkor Vat Monument. It has an exhibition with Buddha statue replicas, which were produced by the Stereo Lithography technology of Hitachi Group. We have financially supported the project as one of the 11 group companies related to the technology, and show the Company name on the tablet besides the exhibition.

Toyama Works' Social Contribution

●Baseball School for Healthy Growth of Youth

As one of the activities for employees' welfare and benefit as well as a contribution to the community, Toyama Works have presented a baseball session, with the coaching of "Toyama Pro BC League* Baseball Team" and "Toyama Thunderbirds," contributing to the health and education of the local youth, including the employees' children.

*BC League: Baseball Challenge League, an independent baseball league organized by 6 baseball teams in the Joshin'etsu and Hokuriku regions.

●Pupils Visited the Factory

Responding to the request of neighboring Yatsuo Elementary School, the Works received the visit of all the third grade pupils, as a part of the school's outdoor program. After the study tour of the production line of semiconductor manufacturing equipment, the pupils wrote their comment lines and signs on a fancy piece of cardboard.

●Hosting "Hikiyama Festival" and "Owara Kaze no Bon Festival"

To maintain harmony with the community and to reserve its tradition, the Works contribute donations to "Hikiyama Festival" and "Owara Kaze no Bon Festival."

Owara Kaze no Bon Festival

Hikiyama Festival

●Rescue Drill of the Community

There has been a disaster-fighting drill as the collaboration with the local community, and the Works' brigade has attended the rescue simulation from a collective residential building and the subsequent life-saving trainings.

Hamura Work's Social Contribution

●Middle School Internship Program

In the city of Hamura, the Board of Education provides junior high school students with opportunities to learn from workplace experience in order to "train every student to acquire a positive sense of responsibility." In cooperating with the policy in fiscal 2007, the Hamura Works invited a total of 4 students from two schools in the city.

●Community Reactivate Volunteer Activities

To help reactivate the community, employees of the Works cooperate and participate in the volunteer work for "Hamura Flower and Water Festival (March and April)", "Full Bloom Campaign (May)", "Summer Festival (July)" and "Smoking Manner-up Campaign, Industrial Festival (November)."

Koganei Work's Social Contribution

●Supporting "Aozora Festival" of Aozora Welfare Center

In July 2007, there took place a local summer festivity, "Aozora Festival" at the Aozora Welfare Center of the city of Kodaira. The Koganei Works, as the neighboring company of the facility, have supported the event and help reactivate the community.

●Middle School Internship Program

In December 2007, the Works have accepted 2 students from Chuo Junior High School of the city of Higashi Kurume for 2 days, as the work place experience trainees.

They have chosen the Works' factory as the training work place, because they were "interested in *Monozukuri* (creative manufacturing)." After the Works' Production Control Center explained *Monozukuri*, therefore, the work place experience session took place at our Procurement Division, upstream division of *Monozukuri*. They learned procedures there, processed some administrative works such as PC data input, and experienced an actual operation in the warehouse.

Their comments after the 2 days session were, "It has been a fun studying under your friendly and thoughtful instructions." The Works desire to continue this program for communication with the community, or as a part of the CSR activities.

Joint Activity by Kokusai Electric Techno Service Co., Ltd. and Kokusai Electric Semiconductor Service Inc.

●Volunteer Activities Restoring Woodlots in Yatsuo-machi

The two companies jointly promoted the volunteer activities for years, in restoring *satoyama* (a natural woodlot that exists with a moderate human intervention) in Yatsuo-machi of city of Toyama.

As a part of an occasion related to the municipal forestry project (10 years from 2007) of city of Toyama, Mr. Hirota from Toyama Agriculture and Forestry Administration Office has stated that he is grateful for our long lasting activities. The companies intend to further promote these activities and contribute to the local community.

Tohoku Electronics Engineering Inc.

●Volunteer Activity Cleaning-up the City of Sendai

The volunteers from Tohoku Electronics Engineering Inc. living in the city of Sendai, among around 500 participants from 41 Hitachi group companies in the Tohoku region, joined the Activity arranged by "Hitachi Aoba Kai" of Tohoku Branch of the Hitachi, Ltd. and sorted out the trash or collected the PET bottles.

Goyo Electronics Co., Ltd.

●Oga Kaiyo High School and Aikawa High School Visited the Factory

In November 2007, Goyo Electronics Co., Ltd. invited students from the two high schools of its vicinities for a study tour of the working place. This is arranged by Zaidan-hojin Furusato Teiju Kiko for the purpose to enlighten the students on job responsibilities, and the company accepted it as a part of its social contribution and public communication. The program of the day took about 70 minutes, consisting of a briefing of the company's profile, study tour of the factory and the subsequent Q and A session.

●Clean-up Contribution for the Community Environment

In May 2007, about 150 employees from the head office and Tsurunumadai Works of Goyo Electronics Co., Ltd. went out cleaning up the surrounding area. This clean-up activity for about 30 minutes collected four 40 litter bags full of Cans and Bottles. In future, they intend to further contribute to the community, considering the width of cleaning area and the frequency of the activity, or collaborating with the coordinators of the local community.

●Tenno Greenland Matsuri, Provision of Parking Place

"Tenno Greenland" is the *Michino-Eki*, or Road-side Station, at just 5 minutes' walking distance from the head office or Tsurunumadai Works of Goyo Electronics Co., Ltd. It is quite popular, furnished with the hot spring, restaurants and a wide playground, fitting to blossom watching or camping.

For two days in August 2007, an annual festivity, Tenno Greenland Matsuri took place on a grand scale successfully. The company has contributed to the festivity its employees' parking place, as a part of its cooperation with the community.

"Goyo Electronics Co., Ltd." and "Temporary Parking Place"

Hitachi Kokusai Electric Services Inc.

●Communication on Environmental Activities

This company receives information from its branches all over the country with regard to the various environmental activities, and shares the information by listing on the intra-net site.

They update the knowledge on the environment, use it for the wide range of their activities, and make continuous efforts of daily activities, by openly sharing the skilful, inventive ideas and information, such as "No My-car Day", "How to Sort the Trash", "Recycle Notice Board", "Invitation to Eco-activity", "Ideas to Reduce Disposal", etc.
